Highways Maintenance Newsletter

Countywide for February 2016

Hampshire County Council is introducing a scholarship programme to support the next generation of Civil Engineers. As the first local authority to join forces with the University of Southampton on their SUCCESS scholarship scheme, and working with the University of Portsmouth to develop a scholarship scheme, four Undergraduates aged between 19 and 22 will look forward to receiving an annual bursary, summer work placements and industrial mentoring. There is also an option for them to spend a 'Year Out in Industry' with the County Council's highway engineering teams during their course, if they wish. After graduating, the students may be offered the chance to join the County Council's accredited ICE Graduate Trainee Scheme to enable them to attain professional membership level of the Institution of Civil Engineers and long term employment with the County Council.

Countywide statistics for February 2016

*all statistics are based on the data available on 15 March 2016 for the month of February 2016

Undergraduates on the scholarship scheme Left to right: Tim Lawton (Head of Highways), Kachinga Shamboko, Mike Ellis, James Bragg,

Adam Hood and Colin Taylor (Interium Deputy Director).
